

SMA Flexible Storage System

SMA Integrated Storage System

Disclosure of System Interface for Remote Control and Remote Parameterization

In order to fulfill the terms of the incentive program "Erneuerbare Energien – Speicher" offered by the KfW Bank, inverters installed in stationary and decentralized battery storage systems must be equipped with suitable and duly disclosed interfaces for remote parameterization and remote control. Additional information is available in the following documents:

- „Richtlinien zur Förderung von stationären und dezentralen Batteriespeichersystemen zur Nutzung in Verbindung mit Photovoltaikanlagen“ (Directives governing the funding of stationary and decentralized battery storage systems for use in conjunction with PV plants - only available in German) issued by Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, 2012-12-21.
- Erläuterungen „Erneuerbare Energien „Speicher“ – Konkretisierungen der Fördervoraussetzungen“ (Explanatory notes "Renewable energies "Storage Batteries" - Details of eligibility criteria" - only available in German), 2013-05-06.

The system interface for remote control and remote parameterization of the SMA Flexible Storage System is provided by the Sunny Home Manager via Modbus[®]. This system interface is described in the document "SUNNY HOME MANAGER Modbus[®] Interface Grid Management Services". You can request this document from SMA Solar Technology AG.

Procedure:

1. Send an e-mail to request the document "SUNNY HOME MANAGER Modbus[®] Interface Grid Management Services". Please use the e-mail address Grid-Management-Interface@SMA.de.
 - First of all, you will receive the document "Statement on Disclosure of System Interface for Remote Control and Remote Parameterization".
2. Please complete and sign this document.
3. Send the signed, original document by mail to SMA Solar Technology AG (see below for contact details).
 - SMA will now send you the document "SUNNY HOME MANAGER Modbus[®] Interface Grid Management Services" by e-mail.
