**RE: Warranty during the market launch of RESU high voltage storage in combination with Huawei inverters**

Dear ladies and gentlemen,

With this letter we confirm, that the technical compatibility of the Huawei inverter series named SUN2000L with LG Chem RESU high voltage batteries is basically established.

Even though the availability of a general warranty is connected to the declaration of general availability of RESU high volt storage units, the manufacturer LG Chem declares the following : LG Chem will cover the regular product warranty for all systems that are installed during the controlled market introduction phase. The condition for granting this warranty during the controlled market introduction phase is the registration of the installed system using the attached form.

With best regards,

Jörn Jürgens  
Director, Energy Storage Systems (EMEA)  
LG Chem Europe GmbH

LG Chem Europe GmbH  
Otto-Volger-Str. 7C  
65843 Sulzbach (Taunus)  
Germany

**Registration of RESU 7H/10H storage units during the controlled market launch of RESU high voltage storage in combination with Huawei inverters**
